

CREATION D'UNE APPLLET IFTTT
DECLENCHANT UN
SCENARIO TAHOMA DEPUIS UN BOUTON
SUR UN SMARTPHONE

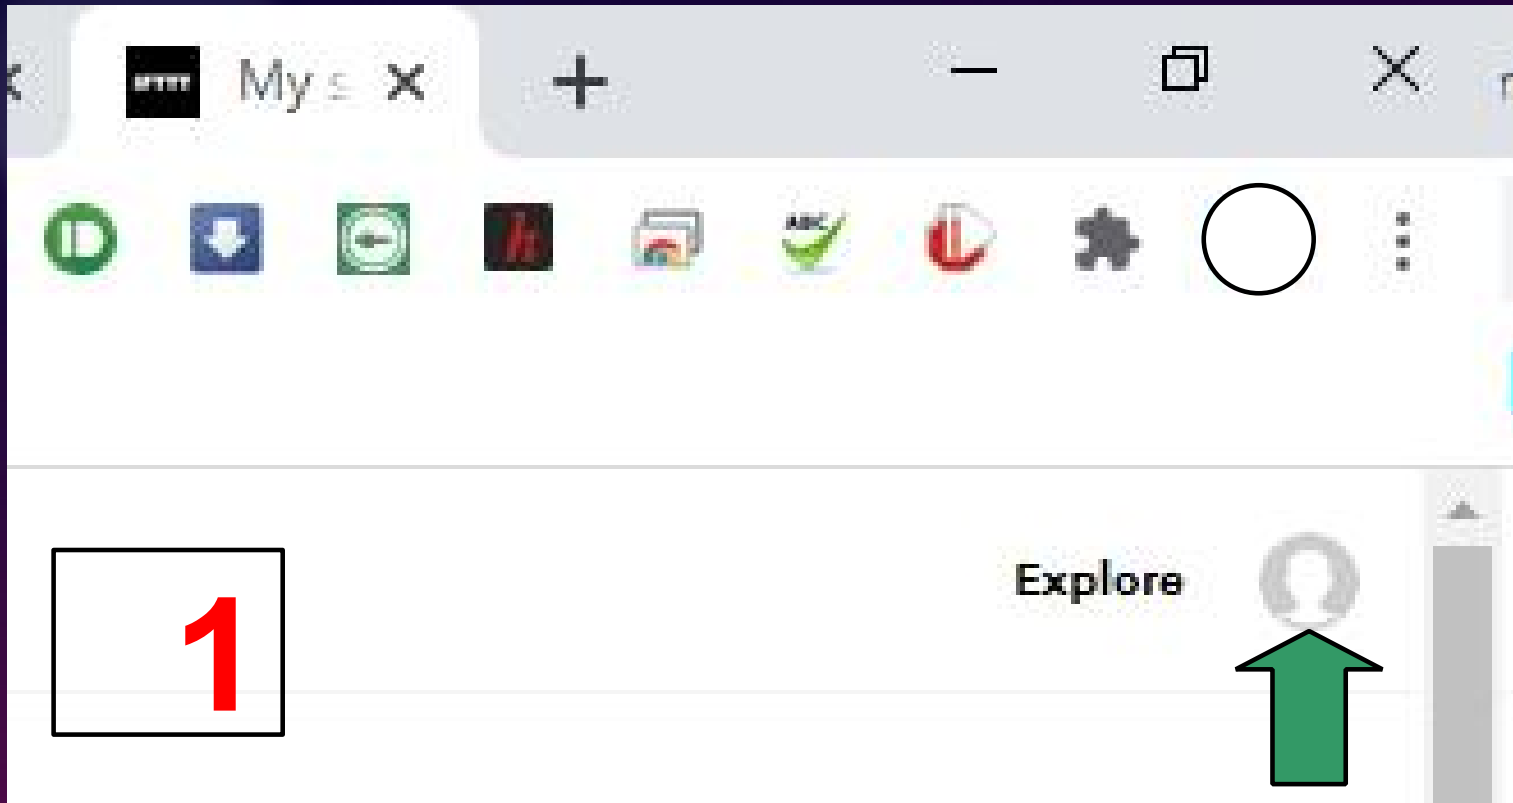

L'exemple sera celui d'un scénario nommé « Départ » qui provoquera l'ouverture simultanée d'une porte de garage et d'un portail.

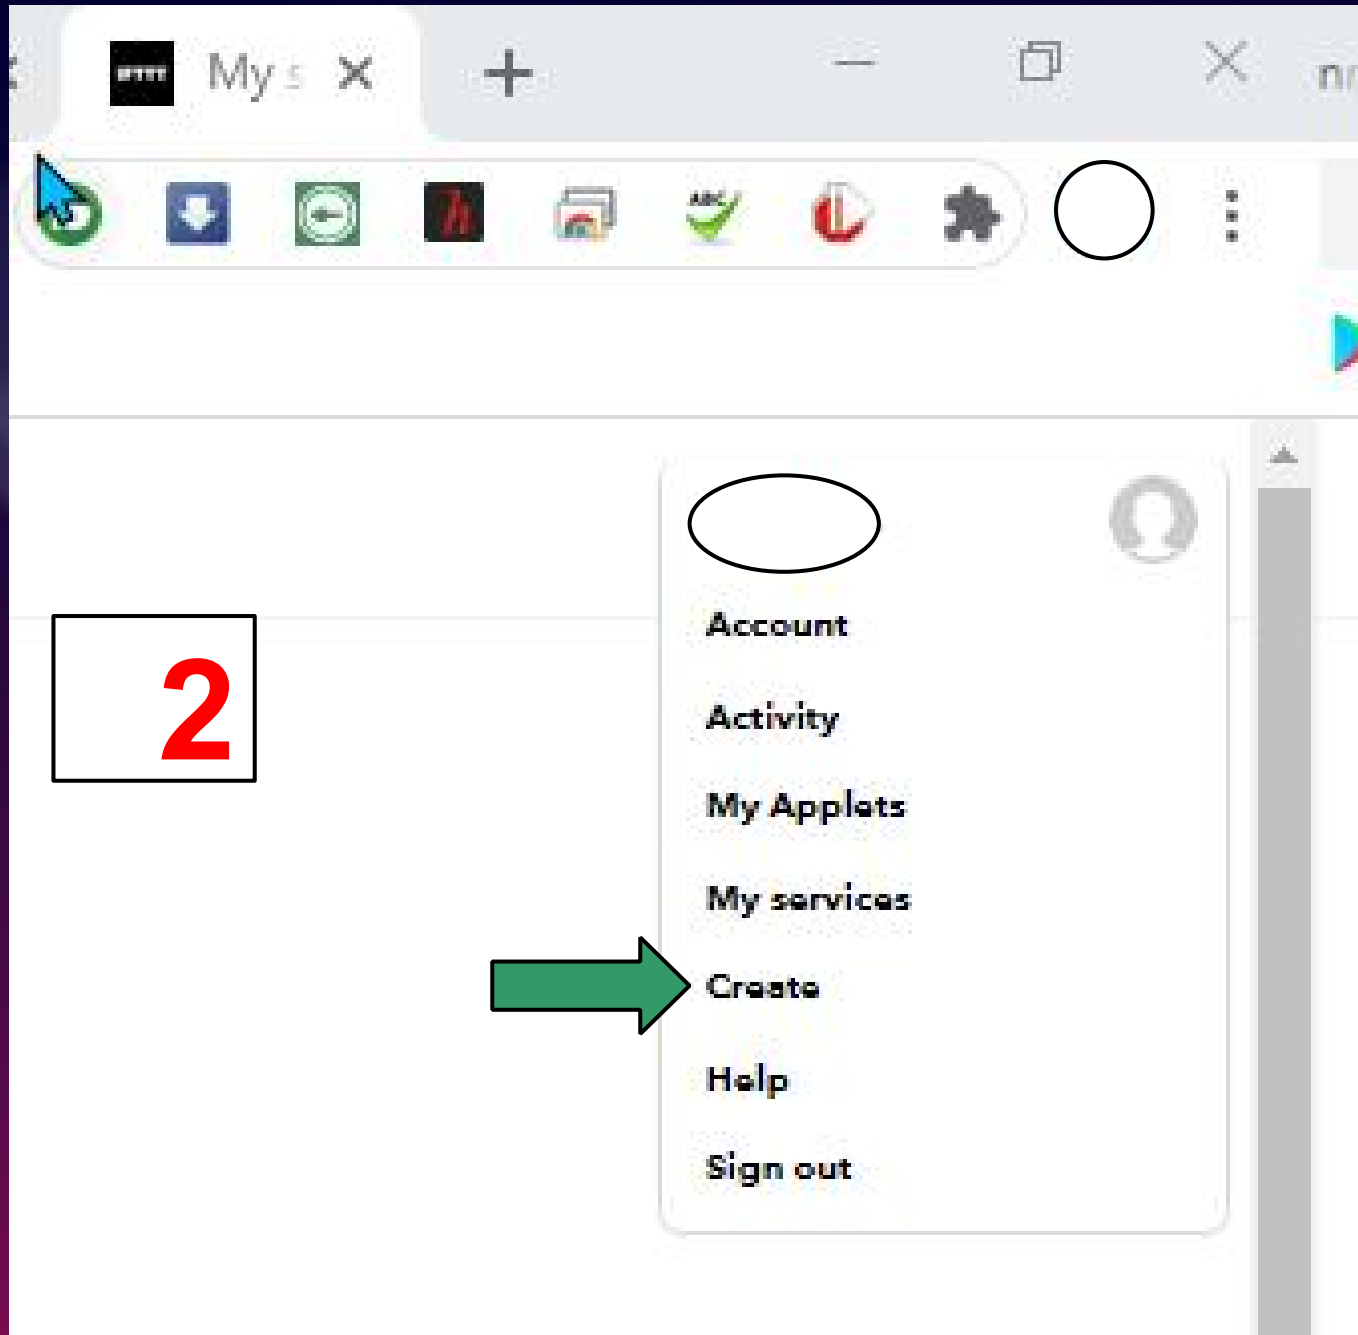

Le scénario devra avoir été créé précédemment dans
TAHOMA

Il faut d'abord avoir créé un compte sur ifttt.com puis s'y connecter.

- Les diapos suivantes sont dans l'ordre de création.
- Les flêches vertes indiquent là où il faut cliquer.

CREATION DU BOUTON SUR LE SMARTPHONE

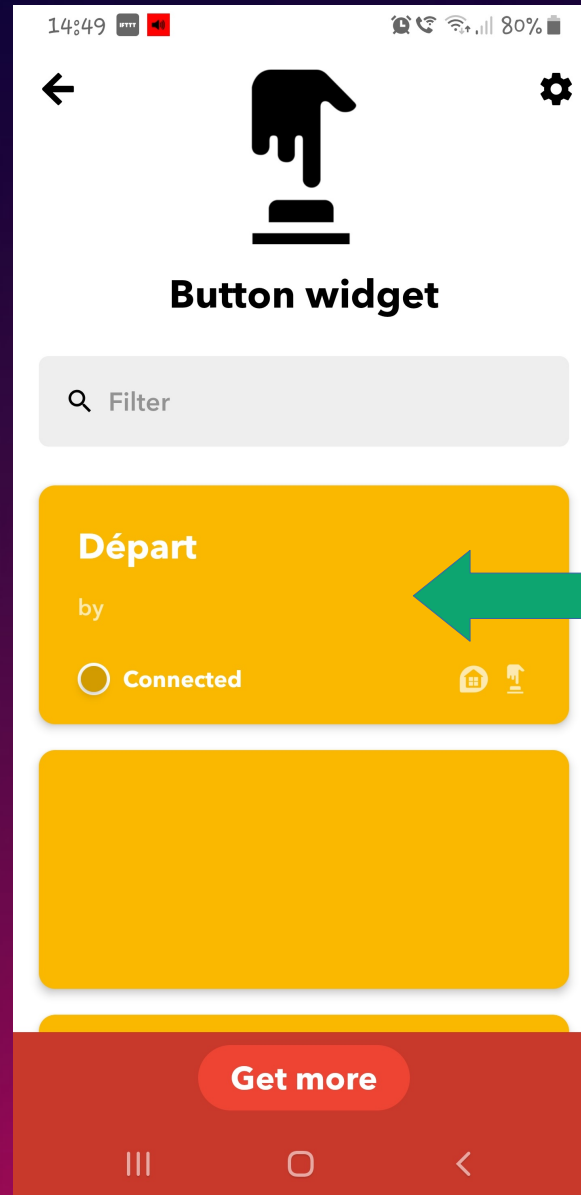

Ouvrir l'application ifttt sur le smartphone

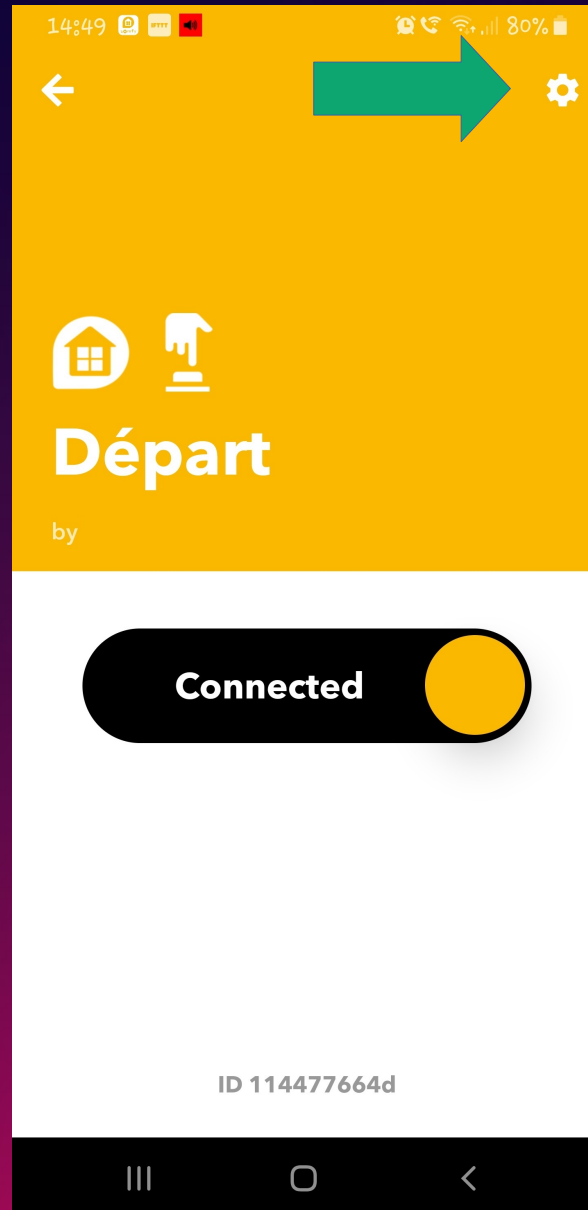

Sélectionner « Button widget »

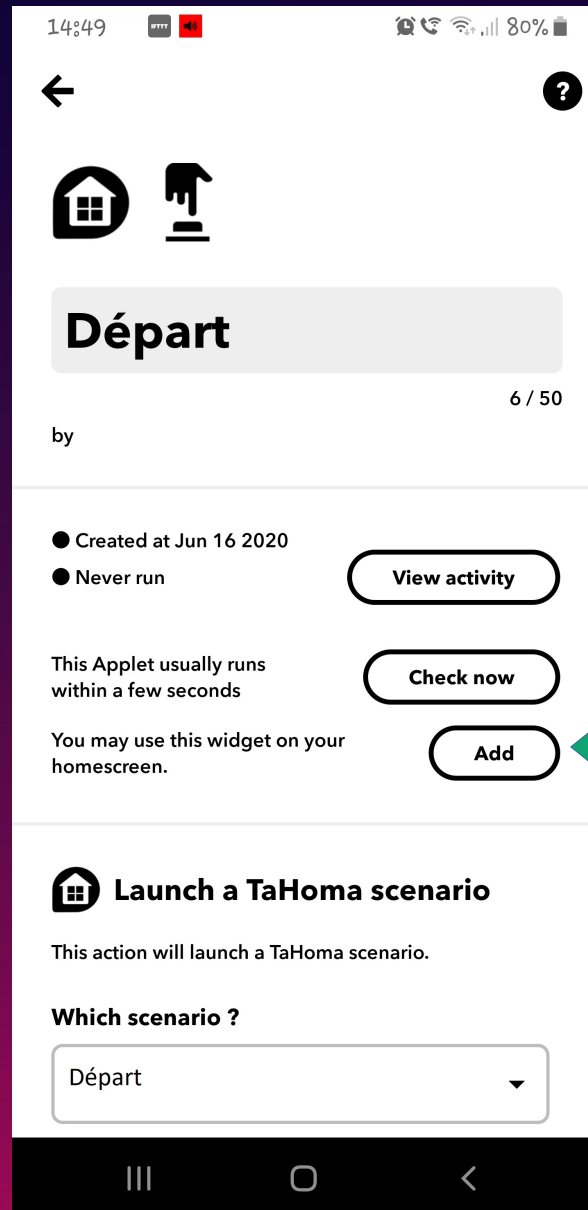

Sélectionner « Départ »

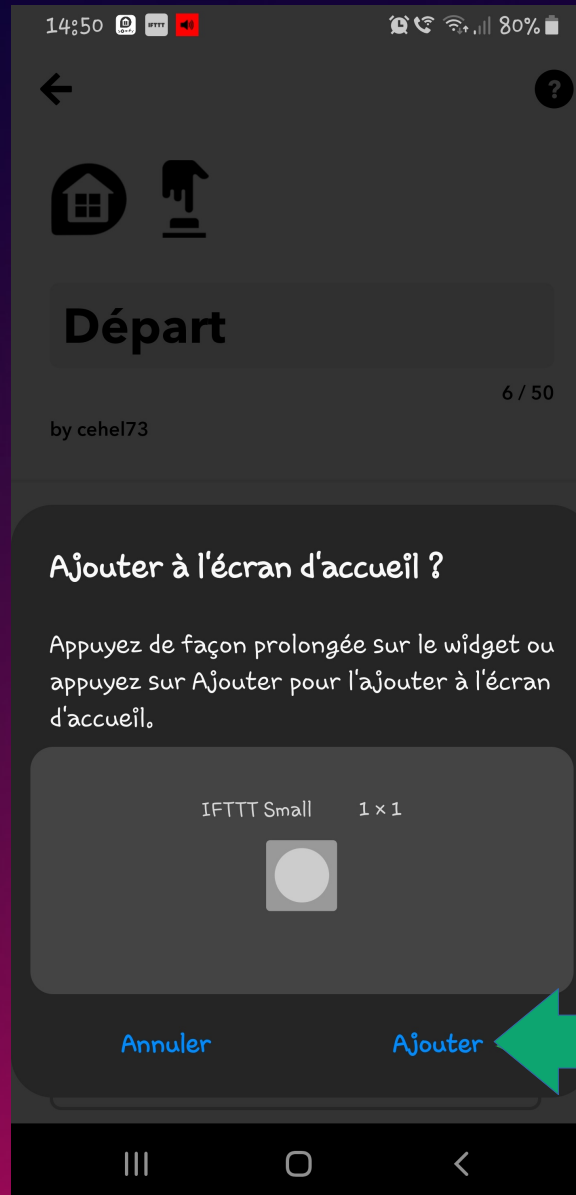

Sélectionner la roue dentée

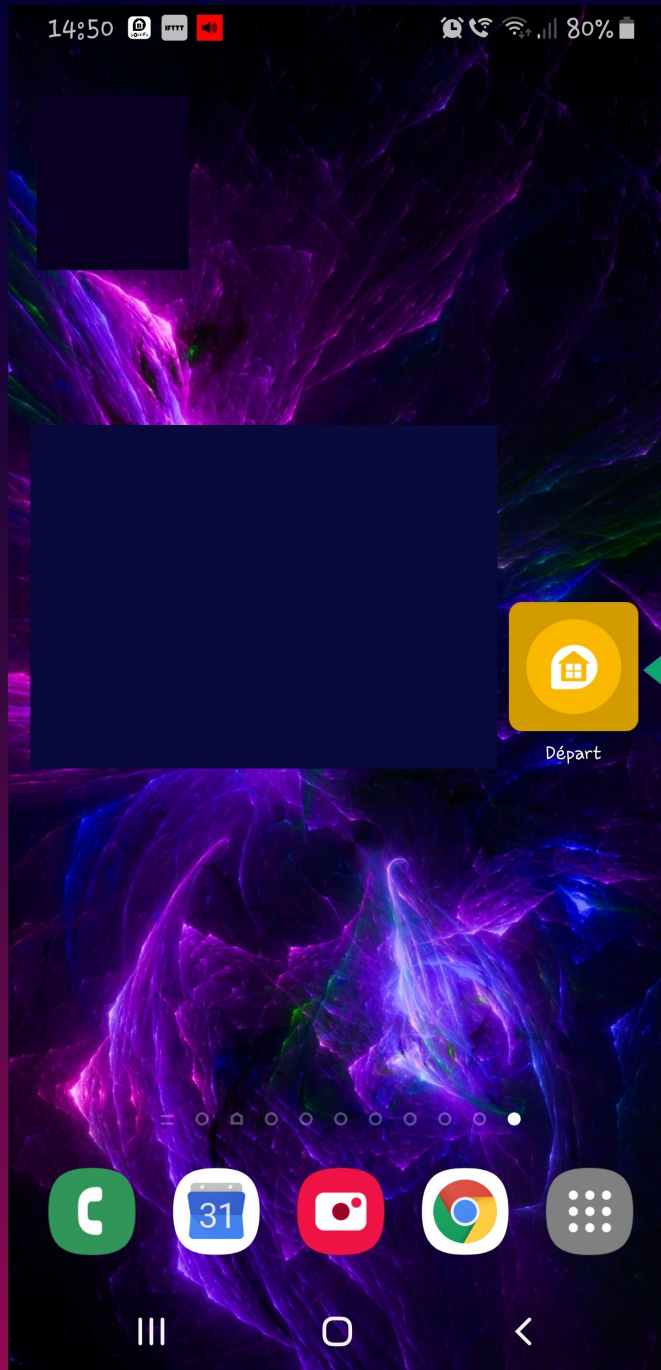

Sélectionner « Add »

Sélectionner « Ajouter »

L'appui sur le bouton déclenchera le scénario « Départ »
